CAREER OBJECTIVE

Aspiring Java Developer with a strong foundation in Java, Front-end, and Back-end development, seeking an opportunity to leverage my skills in designing, developing, and maintaining scalable web applications. Passionate about creating efficient, user-friendly solutions with expertise in JSP, Servlets, JDBC, HTML, CSS, JavaScript, and database management.

PROJECTS

Efficient Manhole Inspection System Using Deep Learning in UAV Navigation

- Developed using CNN algorithms and Image Processing for automated defect detection. Improved accuracy and efficiency in identifying manhole conditions through deep learning-based analysis.

College Department Website

- Developed a College Department Website to provide information on faculty, courses, and events. Implemented a user-friendly interface with HTML, CSS, JavaScript

Online Product Ordering and Cancelling

- Developed an Online Product Ordering and Cancelling System using Spring Boot, REST APIs, and Microservices for seamless order management.

Institution Management System

- Developed an Institution Management System using the Hibernate framework for efficient data handling and persistence. Streamlined student, faculty, and course management with database integration.

TRAINING & CERTIFICATIONS

INTERNSHIP

Java Full Stack Developer

Company : Palle Technologies - 6 months

CERTIFICATIONS

- Full Stack Development - Completed in Guvi
- Web Development - Odugga Tech

SOFT SKILLS

- Problem Solving
- Team Work
- Time Management
